Education

Sahyadri College of Engineering and Management, Adyar

Sep -2023

Bachelor of Engineering in Computer Science

CGPA:9.14

Mangalore, Karnataka

Professional Summary

Aspiring Machine Learning and AI Engineer with hands-on experience in developing intelligent applications using Python, Scikit-learn, and modern AI techniques. Skilled in data preprocessing, feature engineering, model development, and working with datasets using Pandas, NumPy, and SQL. Passionate about building AI-powered solutions, including Natural Language Processing (NLP), Retrieval-Augmented Generation (RAG), and transformer-based models, to solve real-world challenges and drive intelligent decision-making.

Projects

Real Time Queue Management System | HTML, CSS, JavaScript, React.js, Firebase, Twilio API

November-2025

- Engineered a real-time healthcare queue management platform using React.js and Firebase, enabling instant patient registration and live queue tracking
- Reduced manual coordination by implementing automated priority-based queue handling for critical cases
- Enabled real-time SMS alerts through Twilio API integration, improving communication efficiency between patients and hospital staff
- Built a centralised admin dashboard with live database synchronisation for operational transparency

Tri Domain Meta-Agent: Adaptive and Explainable Multi-Domain Advisory Using RAG

April-2026

Python, RAG, LLM, FAISS, FASTAPI, PostgreSQL

- Developed an AI-powered advisory system integrating Career, Health, and Finance domains using Retrieval-Augmented Generation (RAG).
- Designed and implemented a FastAPI backend with PostgreSQL for user authentication, chat history, memory management, and PDF report generation.
- Leveraged Large Language Models (LLMs) with prompt engineering to generate accurate, context-aware recommendations by combining retrieved knowledge with generative AI.

Technical Skills

Languages: Python, C, SQL, HTML, CSS

Frameworks/Libraries: Pandas, NumPy, Scikit-learn, Matplotlib

Databases: MySQL, PostgreSQL, Firebase Realtime Database

Tools: Git, GitHub, Postman, Visual Studio Code, Tableau

Google Colab, Microsoft Excel

Soft Skills

Problem-Solving, Analytical Thinking, Collaboration, Communication

Language Skills: English, Hindi, Japanese(Intermediate)

Certifications

- [AINNOVATION 2025: Microsoft Azure Learning Challenge](#) :Issued on Sep 30,2025
- [Machine Learning Certification](#) : Issued on April 15,2025
- [Exploratory Data Analysis for Machine Learning](#) :Issued on June 27,2026
